

## JOSEPH H. OGURA PAPERS

### Collection Summary

Volume: 4 linear feet  
Inclusive dates: 1935-1983  
Collection code: FC042

### Historical Note

Joseph Hirosuke Ogura was born in San Francisco in 1915. He studied at the University of California, receiving his BA (1937) and MD (1941). From 1940-1948, he did internships and residencies at hospitals in California and Ohio as well as the WU School of Medicine and McMillan, Barnes, and St. Louis City Hospitals. Ogura's first teaching post at the School of Medicine in 1948 was instructor of Otolaryngology. He was promoted to assistant professor in 1951 and associate professor in 1953. He became full professor in 1960 and Lindburg Professor in 1966. He served as head of the department of Otolaryngology and otolaryngologist-in-chief at Barnes and St. Louis Children's Hospital for sixteen years, 1966-1982. He remained as staff otolaryngologist at Barnes and Childrens until his death in 1983 at the age of 67. The School of Medicine created the Ogura Lectureship in honor of him in 1977.

A superb academic physician and surgeon, Ogura developed refinements in the voice sparing operation for cancer of the larynx. Prior to his innovative laryngeal surgery, patients underwent total removal of the larynx. With his approach, he preserved larygeal function for speech and swallowing.

Ogura was an indefatigable contributor to medical literature and teaching programs of head and neck surgery. He was the author of more than 300 articles and 20 books. Head and neck cancer, ablative surgery, and reconstructive surgery were his specialties. His research interests included nasopulmonary mechanics, laryngeal physiology, and the study and care of progressive malignant exophthalmus and he explored the possibility of transplantation of the larynx.

Ogura was a member of 30 professional societies including the elite international society, Collegium Oto-Rhino-Laryngological Amicitiate Sacurum whose U. S. membership was limited to 20 active otolaryngologists. He was one of three physicians in the history of the American Laryngological Association to receive all three of its awards: the Casselberry Award, the James Newcombe Award and the DeRoalds Gold medal. He was president of the American Society for Head and Neck Surgery, the American Laryngological Association, and the Society of Academic Chairman of Otolaryngology. He was selected in 1980 to the Royal Society of Medicine, and appointed to the National Cancer Advisory Board by President Nixon in 1972. (From *WU Record* 4-21-83 and *Arch Otolaryngol* 106:662-663, Nov. 1980).

### **Provenance**

Gift of Ruth (Mrs. Joseph) Ogura, July 25, 1983, 83-35.

### **Access and Use**

The collection is open and accessible for research. Certain categories of documentation, however, may carry restrictions on access. For detailed information, contact the Archives and Rare Book Section ([arb@wusm.wustl.edu](mailto:arb@wusm.wustl.edu)). The Library holds copyright to the unpublished writings.

### **Scope and Content**

The Ogura papers include five document series including general correspondence, research manuscripts, appointment calendars, medical school notes, and reprints. In terms of subjects, the general correspondence includes Ogura's editorial work for *The Laryngoscope* and peer reviews for other journals, as well as professional associations to which Ogura gave much time. Of local interest is material on Barnes Hospital, Jewish Hospital, but mostly on the administration of the department of Otolaryngology in the Washington University School of Medicine.

The research manuscripts and reprints cover his clinical research interests in head and neck surgery, laryngeal physiology and transplantation, and nasopulmonary mechanics. Formats of the paper documents include correspondence, department records, notebooks, manuscripts, and reprints. The reprints are a sampling of his 300 published articles.

### **Related Material**

Accession 83-066, VC093 (Ogura, Joseph H., award certificates and a photographs, 1966-1982). Gift of Ruth Ogura, 1983.

### **Organization of the Collection (Series List)**

- Series 1: General correspondence, 1935-1983. Box 1-4.
- Series 2: Research manuscript files, 1948-1977. Boxes 5-6.
- Series 3: Medical school notes, 1940-no date. Box 7.
- Series 4: Appointment calendars, 1949-1960. Box 7.
- Series 5: Reprints (and complete bibliography), 1952-1980. Box 8.

**SERIES 5: PUBLICATIONS, 1952-1980, AND BIBLIOGRAPHY, 1943-1984**

*The series consists of a sample of Ogura's reprints, 1952-1980, acquired from Mrs. Ogura, Box 8. No attempt was made to collect his complete work for the archives because the articles are readily available in Becker Library and other libraries. For general information, however, we provide a bibliography, including short publications, books, motion pictures, and lectures. Arrangement is first by type of publication and, within each type chronological by year, alphabetical by first author, and alphabetical by title. The items in Series 5 are noted.*
